RESEARCH AND PROFESSIONAL EXPERIENCE

Research Technician — Arctic Long-Term Ecological Research Project (ARC LTER) Jun–Aug 2022
Coordinated the monitoring of arctic lakes for fish, benthic fauna, and zooplankton to understand spatial and temporal variation in food webs.

Undergraduate Researcher — Natural History Museum of Utah Jan 2021–May 2022
Designed a research project comparing burned extant plant charcoal to charcoal contained in paleo core from the South African Fynbos. Analyzed XRF geochemical data from paleo cores to compare sediment chemistry and charcoal morphotypes.

NSF REU Fellow — Arctic Long-Term Ecological Research Project (ARC LTER) Jun–Aug 2021
Identified, counted, and analyzed differences between zooplankton from a lake with a recent thermokarst and a paired reference lake.

Forestry Intern — Brighton Resort, UT Jan–May 2021

Rangeland Technician — Bureau of Land Management	Apr–Nov 2020
Vegetation Management Intern — ACE / National Park Service	Aug–Dec 2019
Conservation & Education Associate — Southern Appalachian Highlands Conservancy	Aug 2017–Jul 2018
